

Handler SCL170

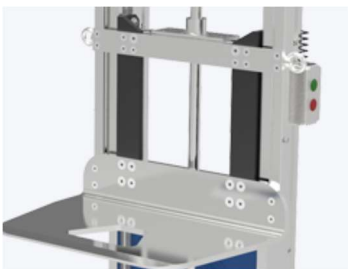

SCL170 is a material handling equipment that combines the powered stair climber and lifter functions. Climbing capacity and lifting capacity both are 170kg. With the lifting function, the SCL170 can lift itself and cargo to the platform or truck, which can meet all the transportation needs of heavy cargo. Application: Logistics, express delivery, warehousing, loading and unloading trucks, moving, furniture and household appliances and other industries, as well as factories, warehouses, offices, residential buildings, outdoor stairs and other places.

Category: Handler SCL170

TECHNICAL DATA

ITEM	VALUE
Model	SCL170
Net Weight	54.8kg
Lifting Stroke	1000mm
Lifting Capacity	170kg
Battery Capacity	230-290times(1time: one rise and one fall)
Rising /Falling speed	20~50s/time
Overall Size	1390mm*585mm*650mm
Climbing Capacity	170kg
Climbing Speed	24~34steps/min
Battery Climbing	52~117floors
Weight of Battery	3.2kg
Charging Time	3hours
Noise	<70dB
Protection Level	IP54

Loading Board

Large lifting capacity of 170kg up to 1m

Handle

Adjustable angle and folding

Support wheels

High abrasive and anti-slip support wheels

Foldable outrigger
